

Explore the Summer Magic at Springfield

2022 Pre-K Program:
Ms. Leah & Ms. Lori

Mini Session: Summer Fun

Different relay games will be set-up to challenge the children's balance and coordination. Multiple age-appropriate stories will be presented while cooling off with ice cream.

July: The Five Senses

The children will learn about all the wonder in our senses with fun-filled activities. Learning about the five senses helps preschoolers learn more about scientific inquiry and helps them describe what they are experiencing and observing in the world around them.

August: Life Cycles

Entering the world of "cycles of life" spirals the imagination. Insects and ocean animals will be the focus for this unit. The children will be engaged in learning facts and will participate in art and science activities. Away we go on this fabulous journey.

Reminders:

July 4th Independence Day— No school or childcare available

August 25th - First day of school
